

Rainwater Harvesting

Clackamas County Soil and Water Conservation District

Good dirt. Clean water.

August 30,31 & Sept 1,2010

Monday August 30, 2010

One-day 100-level workshop
8:30 AM – 5 PM - \$50

ARCSA's 100-level workshop is a one-day introductory course for anyone interested in general knowledge about rainwater harvesting for non-potable applications. This course provides an overview of rainwater-harvesting history, methods and applications, including concepts and techniques for uses such as landscape irrigation and wildlife management. Rain simulation and a simple rainfall harvesting system are used to reinforce concepts. References for further study are provided.

Lunch is provided

Tuesday, Wednesday Aug 31, Sept 1 2010

Two-day, 200-level workshop
8:30 AM – 5 PM - \$295 for workshop
or \$445 + ARCSA membership
to be considered for Accreditation

ARCSA's 200-level workshop is a two-day, in-depth rainwater-harvesting course required for those seeking ARCSA Accredited Professional (AP) status. This course provides attendees with knowledge for rainwater harvesting design and installation for both outdoor and in-home rainwater use; sanitation for potable uses; rules and regulations, guidelines and restrictions; business management; project planning; site and installation safety; and system construction and maintenance. The course will follow the Texas A&M University "Rainwater Harvesting Planning" manual, which is included in the cost.

Lunch is provided
